Saturday September 26, 2009 was one of the most heavily attended air shows in Redding's history. The crowd was estimated to be approximately 18,000. In addition to the potentially record crowd, the temperature reached a record 110 degrees for this date. As a result of the extreme heat, over twenty people were transported to area medical facilities for further care and evaluation for heat related medical conditions.

Those planning to attend the air show on Sunday are strongly encouraged to stay well hydrated and to wear clothing appropriate for the extreme conditions anticipated. Please plan on arriving at the event early due to the very heavy traffic congestion anticipated in the area of the Redding Municipal Airport. Gates open at 9:00 A.M. with the show beginning at 11:00A.M.
