

PRESS RELEASE

March 23, 2010

DUI/Driver License Checkpoint

The Redding Police Department will conduct a DUI and driver license checkpoint within the city limits of Redding on **Wednesday, March 24, 2010**. The Redding Police Department does not announce the time or location of checkpoints, even on the day of the checkpoint.

Motorists entering the checkpoint can expect to see traffic control patterns, warning signs, and officers on the roadway contacting drivers. These officers will be screening for signs of intoxication and checking driver licenses. Drivers will be delayed only momentarily as they pass through the checkpoint. Drivers can assist in the process by having their driver license out and ready to show to an officer.

The Redding Police Department encourages everyone to **immediately report any suspected drunk driver** you see on the roadway by **calling 911**.

For further information contact Sgt. Casey Bokavich at 245-7109.

Funding for this program was provided by a grant from the California Office of Traffic Safety, through the National Highway Traffic Safety Administration.
